CHILD ABUSE STATEMENT

I, *appellant* Andrew U. D. Straw, on my own account and as a crime victim myself, make this STATEMENT:

1. This lawsuit is over a **last-payer benefit** for the family members of veterans who served at Camp LeJeune during the poisoning period.
2. Not providing the benefit to me has a direct negative impact on every health care provider who would be paid by this Camp LeJeune Family Member Program.
3. I wanted to let the Court know about a consequence of not paying my home health aide for the innumerable hours she has spent looking after me. We have stopped making claims, but the last claim was for about \$147,000 in total since 2018.
4. My father sent me a gift for my birthday last month, \$200, and I gave it to Leslie in part so she could hire a babysitter to look after her 2-year-old sometimes and give her a break. This baby is very needy and clingy because his father was killed right in front of Leslie. He can't talk yet.
5. So, Leslie hired a cheap babysitter named Filipe. Filipe is a sadist and we found out yesterday that he has been pinching the baby so hard that it made a bruise the size of a silver dollar. This Filipe

also was throwing the baby up in the air like a basketball and held the baby over the edge of the building on the 3rd floor to scare him. We wondered what was going on because the baby screams so loud every time Leslie leaves the room. This Filipe threatened Leslie's older son to scare him into not telling anyone, but her older son told his mom what he witnessed. Filipe admitted what he did to the local constable.

6. See photos of the baby, attached. Exhibit 1.
7. Leslie first made a police report locally and now she is spending most of the day at the City Police and before a judge.
8. My feeling is that Leslie could have been paying a proper daycare to look after the baby instead of always having to do everything on the cheap because VA will not give me my health insurance that I **EARNED** by being born on an EPA Superfund site on the direction of the U.S. Marine Corps.
9. I WAS ABUSED BY THE UNITED STATES and its officers who poisoned me, and now that my insurance is being denied, this baby was abused.

10. He suffers today from the stinginess of the Veterans Administration; the government lies and distortions.
11. I blame the VA for this child abuse. **BUT FOR causation.**
12. I was BORN THERE. I used the base constantly for about 1.5 years *when I was the age of this abused baby.*
13. Every denial of me is a violation of my human rights and the consequences of denying me spread far and wide.
14. I want the insurance and I want the Court to impose that someone **born there** and with over a year of **base access privileges** gets the coverage. I don't want another person to be **denied for 6 years** after being born and poisoned there.

19. The damage is only going to get worse. That's how injustice operates. It expands and gets worse like an infection unless treated. Justice is the treatment. Due process requires that I get this coverage. The VA's interpretation of the Act is manifest

injustice simply by seeing how it denied me with my overwhelming and compelling facts.

20. Every new complication caused by this failure to respect me as someone born there is the fault of those who did not act to stop it and give me justice. Now, those who denied me and argued against me are responsible for the pain and screams of this innocent baby.

I, *appellant* Andrew U. D. Straw, verify that the above statements and facts presented are true and correct on penalty of perjury.
